

# EASY CLEAN™ 100

GENTLE HANDLING, SANITARY CONVEYOR

PrH  
PRODUCT HANDLING

## Ideal for bakery, food & pharmaceutical applications

Shuttleworth® has developed the next generation of stainless steel conveyors with its Easy Clean™ Sanitary Conveyor Series, designed to meet the specific needs of the food and pharmaceutical industries. Shuttleworth's Easy Clean conveyors provide advanced cleanability, peak performance, reliability and easy maintenance.

The Easy Clean 100 was developed to offer an economical value option for customers. Its durable construction includes a bolted, stainless steel frame equipped with Shuttleworth's patented Slip-Torque® roller technology to accommodate a variety of packaged or dry good applications. Available in standard ½ meter lengths, the Easy Clean 100 can accommodate up to 22 standard widths – and, Shuttleworth can customize its conveyors to meet the customer's specific product application needs.

Shuttleworth's conveyor systems are engineered for product applications requiring low back pressure accumulation for gentle product handling to ensure product integrity in manufacturing and packaging lines. Specialty devices offering combining, dividing, indexing, positioning, stacking and more are also available to complement Easy Clean 100 conveyors.

### FEATURES AND BENEFITS

- **Economical Value Option** - Provides a standard, stainless steel conveyor
- **Easy-to-Clean Design** - Ideal for wipedown and light washdown applications
- **Modular Design** - Allows easy modification for product changes
- **Sanitary Compliant** - Meets Industry and Specific Government Compliance Standards

*Line after line, decade after decade, more manufacturers trust Shuttleworth for their product handling needs.*
